

ABOUT ME

With over ten years of experience in UX, UI, and Graphic Design, I have a demonstrated history of excellence in these fields. Whether it be a cutting edge start-up or an established and reputable brand. I am skilled in UX Design, UI Design, Graphic Design, Product Design, Illustration, and HTML/CSS development. I'm an innovative, creative professional with a Bachelor of Design (Communication Design) from the Swinburne University of Technology.

Not only have I had many opportunities to design for some of the biggest and most well-known brands in the world (i.e., Qantas, Grand Hyatt, Snapchat), but I have also been able to pursue freelance work, engaging with local and small scale projects. Whether I am designing for the world as a well-known brand, or changing someone's world by creating their branding, I am enthused and ambitious.

I am an inventive, self-motivated mind that is passionate about all facets of design. I am agile and adaptive, as my body of work demonstrates. I have created everything from the look of the software that runs the bag-drop at the airport, to the travel brochures and menus at your hotel.

EXPERIENCE

JANUARY 2021 - PRESENT

My Occ Health Record (MOHR)

Senior UX/UI Designer (Full-time)

I joined My Occ Health Record (MOHR) in 2021 as it's first UX/UI Designer, working closely with the onshore and offshore development team. I'm responsible for the development, re-design, and delivery of features associated with the MOHR brand.

I currently work on the MOHR application, developing new features and refining existing ones. I've also designed the iconography used within the application.

APRIL 2017 - DECEMBER 2020

Southbank Software

UX/UI Designer (Full-time)

I joined Southbank Software in 2017 as it's first UX/UI Designer, working closely with the development team. I was responsible for the inception, development, design, and delivery of features associated with the Southbank Software brand.

I worked on the dbKoda, ProvenDB, and Proofable applications and websites, developing new features and refining existing ones. I also designed the logos and brand identity for all three applications.

APRIL 2017 - APRIL 2018

Cirro, Inc

UX/UI Designer (Contract)

I joined the Cirro team alongside another UX/UI Designer in 2017, working closely together and alongside the development team. I was responsible for the development, re-design, and delivery of features associated with the Cirro, Inc. brand. I worked on the existing Cirro application and website, developing new features, and refining existing ones.

MAY 2015 - MARCH 2017

Elenium Automation

Graphic Designer (Full-time)

I joined Elenium Automation in 2015 as a Graphic Designer, working in both digital and print-based design, specialising in branding, product design, web design, and marketing. I was then exposed to the fascinating world of UX and UI design, producing self-service applications for passenger use in airports. I worked closely with the CEO, the development team, and the hardware team. I was responsible for the inception, development, design, and delivery of features and products associated with the Elenium Automation brand.

JANUARY 2015 - DECEMBER 2016

Lincom Solutions

Graphic Designer (Contract)

I joined Lincom Solutions in 2015 as a Graphic Designer, working in both digital and print-based design. I was required to work closely in a marketing team, specialising in branding, product design, and web design.

JANUARY 2013 - DECEMBER 2014

Grand Hyatt Melbourne

Graphic Designer (Contract)

I joined Grand Hyatt Melbourne in 2013 as part of work placement to complete my Bachelor of Design degree. This was my introduction to working full time in my profession. I was then offered a contract position as a full-time Graphic Designer.

I worked closely with the Sales and Marketing team, specialising in hotel branding and product design.
